

Plants of Croome 1746 - 1813
with reference to Garden History 43:1 (2015)

Notes:

1. Dates in bold indicate where the bill date is earlier.
2. Many of these plants were purchased on several occasions: the first instance of the name appearing on the bill is listed here.
3. A wide range of resources has been consulted to compile this list.
4. Current names quoted are according to The Plant List 1.1 where possible.
5. Where the Authority name appears before a plant name in column five, this refers to the bill name in column four.
6. This list represents the plants identified so far. The Croome Plant Research Group continues with this study and updates to the list may be made in the future.
